PROFILE INFO

Bringing ideas from design to deployment is my passion. As a well-qualified Full Stack Developer with over 4+ years of experience, I possess broad expertise in various programming utilities and languages, enabling me to deliver seamless and efficient solutions. I understand that no single technology fits every problem, and I am committed to staying updated and adapting to new solutions as needed. Open to new ideas and driven by innovation, I flourish in dynamic environments, consistently optimizing structures and processes to meet customer targets. Attention to detail and a commitment to high-quality outcomes define my approach to development.

EXPERIENCE

Nov 2021- PRESENT

Infoville Solutions India private limited | Hyderabad.

Sr.Full Stack Developer

- Developed and maintained e-commerce and trip advisory applications, delivering customised solutions to meet client needs.
- Mentored junior developers, providing guidance, code reviews, and technical support to promote their growth and development..
- Collaborated with cross-functional teams to gather requirements, design solutions, and deliver high-quality software within deadlines.
- Utilised Next.js for server-side rendering and static site generation, enhancing application performance and SEO.
- Ensured robust and reliable application functionality through data validation and sanitisation.
- Leveraged the latest technologies, including Next.js, Zustand, Tanstack Query, and Zod, to build scalable and efficient applications.

May 2020 - Oct 2021

- I took a 1.5-year break during the COVID-19 pandemic to focus on personal growth, health, and life experiences, which allowed me to gain valuable insights and a renewed perspective on well-being.

April 2019 - April 2020

Incnut Digital Pvt.Ltd | Kondapur, Hyderabad.

Jr. Full Stack Developer

- Responsible for the end-to-end development of two e-commerce products (Skinkraft and Vedix) using the Shopify platform.
- Utilized ReactJS for the frontend, and NodeJS along with AWS Services (Lambda, Cognito, DynamoDB, S3, and more) for the backend.
- Developed a mobile application for Skinkraft using Flutter and Dart.
- Built an internal application for the factory using React, Node, and SQL.

May 2018 - Mar 2019

The Hacking School | Jubilee Hills, Hyderabad.

- Through the bootcamp, I expanded my experience, learned new industry technologies, and gained invaluable insights from my mentors.

EDUCATION

2014 - 2018 | QIS College of Eng.

Bachelor of Technology

I learned the fundamentals and explored the depth of computer science during my college education.
